

PAPERS IN CONNECTION WITH THE BUBONIC PLAGUE.

WEEKLY REPORT OF PLAGUE IN THE MYSORE STATE, EXCLUDING THE CIVIL AND MILITARY STATION OF BANGALORE, FOR THE WEEK ENDING 2ND JUNE 1899.

I. The total number of indigenous cases and the number of places in which they occurred increased by 10 and 7, respectively, during the week, owing to the increase of cases in the Districts of Bangalore and Mysore.

The figures for the past 4 weeks are as follows:—

	Total No of cases.	Total No. of places.
For week ending 12th May 1899	105	22
For week ending 19th May 1899	95	25
For week ending 26th May 1899	66	19
For week ending 2nd June 1899	76	26

Bangalore City.

II. There were neither attacks nor deaths during the week, and the total mortality decreased from 54 in the previous week to 38 in the present week.

The number of arrivals was 2,209 as against 1,594, and that of departures 1,541 as against 1,215 in the previous week. The total population of the City at the close of the week was 66,512 as against 65,840 at the end of the previous week, showing a net increase of 672.

III. The figures for the Health and Segregation Camps were as follows:—

	Remaining.	Admitted.	Discharged.	Developed plague.	Remaining.
Health Camps	660	33	12	...	681
Segregation Camps	4	1	1	...	4

IV. During the week under report, there were four first and no second inoculations, bringing the totals to 34,820 and 1,394, respectively. No inoculated person was attacked with plague during the week.

V. There was no admission into the Plague Hospital during the week, and the plague patient * under treatment at the close of the last week is reported to be improving.

VI. The number of houses disinfected was 173 as against 171 in the previous week, of these, 145 were deserted ones, 15 were plague-infected and 13 locked-up ones opened under Government Notification No. 5235—Pg. 21-96, dated 15th October 1898.

VII. During the week, 64 houses were permitted to be occupied as against 61 in the previous week; of these, 18 were disinfected free of charge, one was allowed to be disinfected by the owner himself, and the charges levied on the remaining 45 amounted to Rs. 71-8-0.

VIII. The cost of earth and road works carried out in the Basavangudi and Malleswaram extensions was Rs. 3,797 as against Rs. 2,817, bringing the total amount spent up to date to Rs. 78,786.

IX. The number of infected houses and houses unfit for human habitation demolished during the week was 10, the total number of such houses demolished from the commencement being 547. The number of houses removed for opening out the City was 16, the number so removed from the beginning being 674.

X. During the week three persons were put on trial for violating the Plague Regulations. Two of them were fined rupees five each and the third rupees three.

XI. 927 in-coming passengers, or a daily average of 132 persons, were disinfected with their effects at the City Railway Station.

XII. In their Proceedings No. Pg. 1694—99, dated 8th May 1899, the Government were pleased to appoint a Committee composed of the President, Bangalore City Municipal Commission, the Senior Surgeon and Sanitary Commissioner, the Superintending Engineer, Sanitary Works, the Chief Plague Officer, Bangalore City, and the Executive Engineer, City Improvement Division, for the purpose of deciding (1) as to what portions of the sites of demolished houses could be allowed to be rebuilt upon, (2) amount of space necessary for purposes of ventilation, drainage, roads, &c., and (3) the conditions under which the rebuilding of houses might be permitted. The Committee have accordingly prescribed the following conditions for the reconstruction of such of the demolished houses as are allowed to be rebuilt.

(a) The basement of each house should be at least one foot higher than the road level so that the house may admit of effective drainage.

(b) There shall be no cess pits, arrangements being made for daily conservancy in conformity with the Municipal Bye-Laws.

(c) The roof should, as far as possible, be of tiles or pucca terrace.

(d) The ventilating area of the house to be at least 1/5 of the floor area wherever possible.

(e) The frontage shall, as far as possible, be in a line with the road and be in accordance with plan.

(f) All rebuilding to be done on plans approved by the Committee.

In the month of May the Committee inspected about 73 houses and several lanes, and recorded their opinion that the reconstruction of demolished houses in the vicinity of the Municipal School should be prohibited, that houses already condemned should be demolished without further delay and that such of the houses as could be conveniently taken up should be acquired and the ground added on to the school compound.

Mysore State, outside Bangalore.

XIII. In the Bangalore district, there were 14 indigenous cases as against one in the previous week. Six cases occurred in the village of Pechallidoddi and one in that of Kodihosahalli, in the Channapatna taluk, three in each of the villages of Talaghatpur and Kurubarhalli in the taluks of Bangalore and Doddballapur, respectively, and one at Dodgubbi in the Hoskote taluk.

* Imported.

XIV. In the district of Kolar, excluding the Kolar Gold Fields, the number of cases was the same as in the previous week, viz., 15, Bowringpet taluk contributing 8 cases as against 13, Kolar town 6 against 2, and Chikballapur, which had no case last week, 1 case.

Kolar Gold Fields.

XV. In the Gold Fields the number of cases decreased from 21 to 16. The following statement shows the number of cases and deaths in the several mines for the past four weeks:—

No.	Names of places.	During the week ending 12th May 1899.				During the week ending 19th May 1899.				During the week ending 26th May 1899.				During the week ending 2nd June 1899.				Remarks.

Total		2	51	38	..	2	35	31	..	1	21	14	..	16	17	..	..	..

The number of cases decreased in the Champion Reefs, Mysore Mines, Ooregum Camp, Masikam Upper, Masikam Lower, and Steven's Camp. Nandidrug Camp which had no cases last week had one during the week, and Tank Block 5 against 1. 3 places were newly infected and each had one case. But the decrease in the mines taken as a whole has been well maintained, the number of cases falling gradually to 16 during the week, from 62 during the week ending 28th April 1899. The Special Plague Officer reports that in several villages no cases have occurred for a month continuously.

The following statement shows the number of coolies working and the number of huts demolished, erected, &c., in the mining properties during the week :—

Statement of Coolies and on the Kolar Gold Fields for the week ending 2nd June 1899.

Serial No.	Name of Mines.	Average daily No. of coolies working in ordinary times.	Average during the week ending 26th May 1899.	Average during the week ending 2nd June 1899.	No. of huts demolished as insanitary during the week.	No. of huts put up during the week.	No. of huts removed to new sites during the week.	No. of tenements disinfected during the week.	No. of huts erected since the outbreak.	No. of huts demolished as infected and insanitary since the outbreak.	No. of huts removed to new sites since the outbreak.	No. of tenements disinfected and made habitable.	No. of attacks during the week.	Remarks.

	Total	20,066	16,027	16,690	41	77	8	23	805	743	1453	334	10	Still short of surface labour.

There were 16,690 coolies as against 16,027 or a net increase of 663.

XVI. In the Mysore district, excluding the Mysore City, the number of cases increased from 16 to 24. The village of Sosale in the taluk of Trumakudlu-Narsipur which was newly infected had 7 cases, the town of Seringapatam 8 cases and the villages of Udaboor and Hinkal in the Mysore taluk had 6 and 3 cases respectively.

Mysore City.

XVII. In the Mysore City the figures were as follows :—

	Plague cases.	Plague deaths.	Total mortality.	Normal recorded mortality during the same period
For the week ending 12th May 1899	23	18	55	28
For the week ending 19th May 1899	18	16	53	28
For the week ending 26th May 1899	12	9	57	28
For the week ending 2nd June 1899	7	7	53	26

The number of cases and deaths and the total mortality decreased by 5, 2 and 4 respectively.

XVIII. The total number of arrivals during the week was 991 as against 1,717, that of departures 672 as against 1,023, the total population of the city at the close of the week being 66,506 as against 66,212 showing a net increase of 294.

XIX. The figures for the Segregation Camp were as follows : -

	Remaining.	Admitted.	Discharged.	Died.	Remaining.
For the week	4	2	...	1	5
Since commencement	...	594	556	33	5

XX. There were neither first nor second inoculations during the week. Among the inoculated people there was one attack and one death. The total number of inoculated persons attacked from the commencement was 167; of whom 119 died, 47 recovered, and 1 is still under treatment.

XXI. The hospital figures were as follows :—

	Remaining.	Admitted.	Discharged.	Died.	Remaining.
For the week	4	2	3	2	1
Since commencement	...	263	121	141	1

XXII. 10 houses were disinfected during the week as against 14 in the previous week, the total number of houses disinfected since the commencement being 2,564.

XXIII. 393 out-going passengers or a daily average of 56 persons, with their effects were disinfected at the Mysore City Railway Station.

Extract from the Diary of the District Plague Officer, Kolar district, for the week ending Friday the 2nd June 1899.

* * *

At Kolar inspected the town and visited the plague and segregation camps. Attended office. Two cases of plague (fatal) reported, one at Kodikanur, a village a mile from Kolar and separated from it by a tank, and the other a suspicious one at a Makkan on the Vangal road about $\frac{3}{4}$ of a mile from the town and included within. Visited both places and had the infected houses and the adjoining ones evacuated and thoroughly disinfected and unroofed, and the inmates and contacts segregated in sheds run up for the purpose in the surrounding fields. The deceased in both cases caught the infection in Kolar. The history of the Kodikannur case is as follows :—

The family consisted of 8 members, viz.—(1). Ganganna (Vakkaligar), (2) Venkatamma (wife of No. 1), (3) Narayana (eldest son of Nos. 1 and 2), (4) Subbanna (2nd son of do), (5) Krishna (youngest son of do), (6) Venkati (daughter of do), (7) Guramma (wife of No. 3), (8) Venkamma (mother of No. 1), and lived in Killaripet, an infected quarter of the town. About a month ago owing to the prevalence of plague, they removed to a house in Kodikannur, but No. 3, Narayana (a dalayat in the Treasury) and his brother Subbanna (No. 4) continued to visit Kolar daily; the former in connection with his work and the latter, who used to knock about Killarpet, Ammavarpet and infected parts of the town for purposes of his own. On Tuesday night he took ill with fever, developed all the symptoms of plague and died yesterday (Thursday) morning.

* * *

Extract from the Diary of the District Plague Officer, Kolar district, for the week ending Friday 9th June 1899.

* * *

There was a fatal case of plague reported this morning (Sunday) in the house of a Komti named Sampiah in the main bazaar street (Dodpetta). From enquiries made, it was ascertained that about a week or 10 days ago, some dead rats were found in the kitchen by the deceased and though she repeatedly urged on her husband the desirability of vacating the house, he declined to do so. Four or five days afterwards, their child, a little boy aged 3 years, got fever and died. As there were no buboes present, the Medical officer who inspected the body declared death to be due to convulsions. A couple of days after the death of the child, the deceased took ill with fever, and after ailing for two days, died this morning. A peculiar feature in this case is that there were no buboes either in the neck, armpits or groins, but the glands of the right breast which became abnormally enlarged were affected. I had the house and the adjoining ones evacuated and the inmates and contacts segregated.

* * *

4 seizures and 2 deaths reported in town today, 2 of the former are the sister-in-law (brother's wife) of Komti Sampiah and her child. Had the infected houses and those adjoining evacuated, disinfected and ventilated as also limewashed, contacts segregated in our camp.

* * *

Extract from the Diary of the Special Plague Officer, Kolar Gold Fields, dated 10th June 1899.

* * *

Gutragadapalli got newly infected during the week. As the villagers had a Health Camp ready they moved into it without delay. There has been no second attack at the village, the first case having occurred on the 4th instant.
